

PARILIO

Greece

Projected by Interior Design Laboratorium, Parilio, a member of Design Hotels, is a project inspired by the stripped splendor of Cycladic architecture, the pure land of Paros island and the unique light of the sun. At the exterior, the ultimate focus of the hotel are the bright yellow tents that are one of the most characteristic elements of the hotel. The chairs and tables on the suite balconies are designed by Vincent Van Duysen while the visitor's eye can most

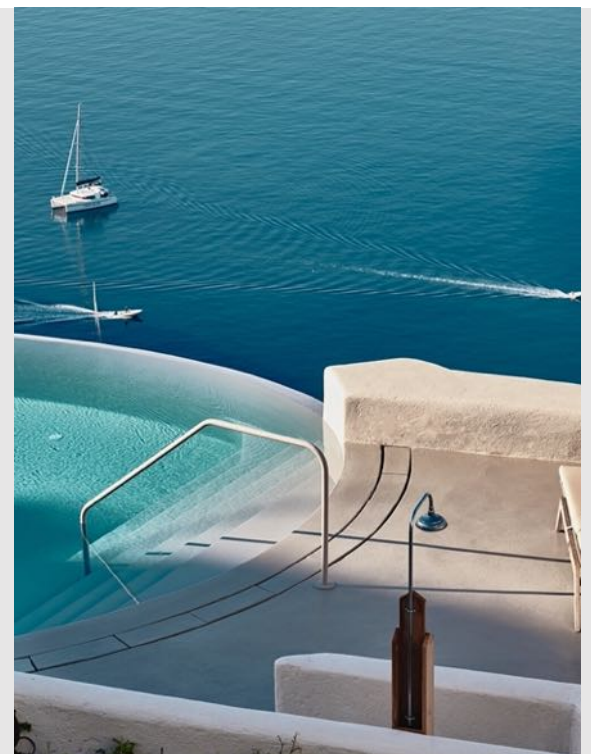

certainly not resist the hotel's pool, with the natural rock that emerges from the crystal waters. The pool is designed like a cross that faces the entrance which frames the cliff of the ancient Acropolis. A strong image which emphasizes the meaning of the Cycladic landscape as well as the unique way in which it can be merged with the architecture presence.

Address: Κολυμπήθρες 844 01, Paros Island, Greece

MYSTIQUE *Greece*

Carved into the rugged Caldera cliffs, Mystique, a Luxury Collection Hotel, overlooks the turquoise expanse of the Aegean Sea that encircles the island of Santorini. Designed by Interior Design Laboratorium, using Cycladic architecture where gentle curves and sculpted arches blend with a muted colour palette and light enhancing spaces, the hotel emanates a carefree spirit and exclusive feel, while offering gloriously open horizons. Linked by a network of cobbled pathways, Mystique's 41 suites and villas boast panoramic sea views across to the active volcano that has shaped this exceptional island. The infinity pool is something of

superb: its crystalline waters blend with the landscape and, with its projection, it seems to float above the sea once immersed.

Address: Oia, 84702, Santorini, Greece
